

HYDRAULIC TILT BUCKET

Whether you are digging pools, ponds, sidewalks, foundations, hardscapes, utility trenches, or anything else, take your mini excavator to the next level with the Mongo Attachments Hydraulic Power Tilt Bucket. Our fine leveling feature allows you to dig level grade from uneven surfaces. With 45 degrees of tilt in both directions, this bucket gives you the versatility to dig hard to reach areas and extreme angles.

Product Specs and Features

	Photo	Compatible Machine Size	Struck Capacity	Heaped Capacity (SAE)
