

# MULCHER

## PRODUCT FEATURES

### HIGH INERTIA MULCHER:

- The perfect hybrid between a flail mower, and a true forestry mulcher
- For 2.5 - 13 ton machines
- Available in 27" 35" and 41"
- Up to 4" of material

### NEW GEN2 FORESTRY MULCHER:

- Open-front design allows for easy mulching access
- For 3.5 - 13 ton machines
- 27" and 35" drum sizes available with bite limiter
- Fully open front design and manually adjustable back gate with three positions
- Uses Quadco style teeth with 5"+ cutting diameter

Mongo Attachments Mulchers easily and safely mulch grass, bushes, brush, and small trees. This mulcher is an essential tool for clearing overgrown land, maintaining fence rows, establishing game and walking paths, building food plots, maintaining ditches and rights-of-way, and so much more.
