

## PRO GRADE FORESTRY MULCHERS

Mongo Attachments ProGrade Forestry Mulchers expand on our proven mulching technology, delivering superior efficiency and power for demanding land-clearing operations. Designed for excavators from 7,000 to 26,000 lbs, these mulchers feature an optimized bite-limiting design, maintaining peak rotor RPMs with hydraulic flow as low as 15 gpm.

- Easy-to-Tune Design
- Manually adjustable back gate with access panels
- Custom mounting coupler and hoses included for Plug-and-Play setup
