HIGH INERTIA+ MULCHERS

PERFECT HYBRID BETWEEN A FLAIL MOWER & A TRUE FORESTRY MULCHER

The Mongo Attachments High Inertia+ Mulcher allows you to easily and safely mulch grass, bushes, brush, and small trees. This mulcher is an essential tool for clearing overgrown land, maintaining fence rows, establishing game/walking paths, building food plots, maintaining ditches/right-of-ways, and so much more.

- Thumb saddles available for all sizes and are sold separately (adds 143 lbs)
- High torque hydraulic motor for slower stall out and faster recovery time
- Case drain required
- Machine-specific coupler and hoses included
