

SOIL CONDITIONER

The Mongo Attachments Soil Conditioner is a powerful, versatile attachment to add to your arsenal. This conditioner makes quick work of a wide variety of projects such as prepping seedbeds, cutting grades, grading dirt or gravel roads, and cleanup/finish grading. Perfect for working on sloped grades where a skid steer would lose traction.

- Reversible wheel arms for stable height adjustment
- Multi-position, adjustable mount
- Work perpendicular, parallel, or at a 45° angle to your tracks
- Solid wheels that never go flat
- Machine-specific coupler and hoses included
